InFocus Rehabilitation Centre Inc. Ontario Centre for Dizziness & Concussion

“putting brains back in the game”

Our Mandate

- To offer gold standard, neurocognitive baseline testing to all athletes in high risk sport in Halton.
- To provide “best practice” multidisciplinary treatment and neurocognitive testing to safely return players to school & sport.

What will InFocus do for you and your team?

- Assist in developing a concussion protocol/policy for your team.
- Educate coaches, parents, players on concussion protocol & sideline assessments.
- Provide and organize baseline testing every 2 years for your players.
- Provide advanced multidisciplinary treatment as needed and return to school/play based on neurocognitive test results.
- Provide documentation to player’s school & coaches regarding any modifications required upon initial return.
- Players will see a physician prior to being cleared for complete return to sport.
